

WAALHIIBE Executive Committee roles and responsibilities

The President coordinates its Executive Committee members and chairs committee meetings. The President ensures that the Student Rural Health Club's objectives are achieved via engagement with its Executive Committee members, stakeholder organisations, guest speakers, members and visitors at events.

The Vice President is responsible for liaising closely with the President and WAALHIIBE Student Rural Health Club Administrator, and provides leadership and support for the delivery of the Student Rural Health Club's objectives. The Vice President liaises with guests attending its meetings, assisting the President in her/his duties and acting in the role of the President during times of absence. The Vice President assists members of the Executive Committee and Student Rural Health Club with event coordination and club activities.

The Indigenous Officer advises and informs the Executive Committee of upcoming Indigenous community engagement events and festivals, and coordinates the attendance of Student Rural Health Club members at Indigenous community events. The Indigenous Officer ensures culturally-sensitive practices are considered in the development of all club activities.

The Marketing and Communications Officer is responsible for all social media marketing and advertising of the Student Rural Health Club's events, in liaison with Executive Committee members.

The Rural High School Visit (RHSV) Officers coordinate a minimum of two RHSVs per year. They advise the Executive Committee and Student Rural Health Club members about RHSV activities. Primarily the RHSV Officers are responsible for building and maintaining strong relationships with relevant students, school staff, community contacts and organisations.

The Executive Committee members are responsible for coordinating events throughout the calendar year, which align with the Student Rural Health Club's goals and objectives established for the year. The Executive Committee members promote events to allied health students.
